This photographic journal chronicles the history and construction of the high Sierra check dams from the first one at Yellowhammer Lake in 1920 through the last one constructed at High Emigrant Lake in 1951, past the establishment of the Emigrant Wilderness in 1975, and through various stages of support and opposition which are on-going to this day. Each major period in either check dam construction or the period after is divided into separate chapters, with each check dam described in detail with historical and recent photographs, many that have never been published. In addition, available historical

writings and records of Fred Leighton and others were utilized to provide a more in depth perspective on the check dams from those directly involved in construction and/or maintenance. Outdoor enthusiasts discovering the Emigrant Wilderness of the high Sierra for the first time might easily consider it a pristine wilderness, rich in wildlife, streams, lakes, and scenic views. And yet, this is one area where the hand of man has worked to enrich the natural landscape. One of the most notable changes man has made in this area is the construction of small rock dams at the outlet of selected lakes and meadows. These dams were called check dams by Fred W. Leighton, who developed the concept of raising the water level of natural lakes and meadows for fishery and riparian enhancement. These check dams provide an enhanced habitat for mountain fish by providing additional water flow in the late summer months when natural streams typically run very low or completely dry. In The Small Book of Hip Checks Erica Rand uses multiple meanings of hip check—including an athlete using their hip to throw an opponent off-balance and the inspection of racialized gender—to consider the workings of queer gender, race, and writing. Explicitly attending to processes of writing and revising, Rand pursues interruption, rethinking, and redirection to challenge standard methods of argumentation and traditional

markers of heft and fluff. She writes about topics including a trans shout-out in a Super Bowl ad, the heyday of lavender dildos, ballet dancer Misty Copeland, the criticism received by figure skater Debi Thomas and tennis great Serena Williams for competing in bodysuits while Black, and the gendering involved in identifying the remains of people who die trying to cross into the United States south of Tucson, Arizona. Along the way, Rand encourages making muscle memory of experimentation and developing an openness to being conceptually knocked

sideways. In other words, to be hip-checked. A fictional tale grounded in pure reality. Blank Check, an intriguing, inspirational Young Adult novel, that takes place on a fictional U.S. island. After serving his country as an Army Ranger, high school principal Josiah Rollins quits in disgust over the broken educational system he can no longer serve. Little does he know this impulsive act would lead him to an unbelievable opportunity to change everything and serve his country and students in the way he had always dreamed. Inspired and funded by a now billionaire war buddy, Josiah tests his educational theories in

a place with low standards and poor student performance: the American Caribbean Islands. The mission is simple: give teachers autonomy and freedom to teach and provide the community the power to make schools the center of their community. But many on the Island are not happy about the project, nor do they trust the white man selling them new ideas. Within Blank Check, learn how Josiah wins over the people and the students, transforming the community and the economy into the American Dream.
